

SUNDAY, MARCH 21, 2021

If you take a box full of puzzle pieces and shake it, things happen to the puzzle pieces – they get pushed into one another, turned in all sorts of different directions, flipped upside down, and moved every which way. It takes time and intentionality to get what’s shaken sorted, turned and headed in the right direction. Things can happen that shake us up, maybe even shake the foundation of life altogether. It takes time and intentionality to sort through foundation-shaking event and get life headed in the right direction. Fortunately, there is help when the foundations shake!

READ DEUTERONOMY 30:11-20

- Have you ever had your foundation shaken? What happened and what lasting image is there in your mind of that time?
- What do you typically do when your foundation is moved? Where do you go for stability?
- How important is hope when the foundation shakes?
- Do you think that God knew that 2020 would be a time of shaking?
- How have you handled 2020? For you, what have you learned about God during 2020 and what have you learned about yourself?

THERE IS HELP WHEN THE FOUNDATIONS SHAKE
