A puzzle is designed with great intentionality. A crossword puzzle connects the letter of words to one another and clues to the specific words so the puzzle goes together. The pieces of a jigsaw puzzle are designed and shaped to fit together, all the pieces combining to form one grand design. God's grand design for the church is similar to a puzzle – all the pieces are designed and shaped intentionally, combining to form one masterpiece. Every piece matters as every piece contributes to the whole. How do we find our place in the puzzle?
